# Autodesk Construction Cloud -manual

Why?

For when you want to set up an automatic link between your projects on Pillr and ACC with multiple hubs. Follow the mentioned steps to proceed.

Important information

The connection between ACC and Pillr needs to setup by the Administrator of both platforms Pillr and ACC.

1. **BIM360 Account environment**
   Login as Account Admin on https://acc.Autodesk.com for the VS-server or https://acc.eu.Autodesk.com for the EMEA-server.

2. **Integration**
   - Go to Account Admin settings and select Apps
   - Select the tile Pillr
   - Click on the blue button to add Pillr
   - Clink on the blue button to authorize Pillr
   - Pillr is now added as an App.
   - Go to Pillr and the project module, you can now add model from the ACC. Login with your Autodesk credentials and select your hub and project.

3. **Contact**
   If the above steps did not lead to an integration, please contact Pillr by sending an email to support@pillr.nl
